

About OSG

Our focus has always been on giving our customers the highest possible level of service. OSG has become an industry leader through our commitment to providing unparalleled invoice and statement printing and presentment with integrated and relevant customer communications.

At OSG, we are keenly aware that transactional documents have the potential to become a revenue-producing resource. Utilized as a transpromotional document, an invoice or statement is a reliable method for maintaining constant communication with customers. While strengthening customer relationships, they also enhance a company's image and build brand loyalty.

To help our customers maximize the value of their invoices and statements, OSG has created an array of products and services that can be combined and customized to meet your specific needs. Using our electronic billing or print and mail products in conjunction with our Creative Studio's expertise, allows our customers to make the most of their monthly customer communications.

To guarantee zero-defect processing and on-time performance, OSG utilizes a highly-defined Automated Document Factory (ADF) system, which allows us to implement stringent quality controls for invoice and statement production. To ensure business continuity, we operate full production facilities in Carlstadt, New Jersey; New Berlin, Wisconsin; Mount Airy, North Carolina and Tempe, Arizona. Invoice production takes place 24 hours a day, 7 days a week, 365 days a year.

A strategic partnership with OSG offers unrivaled industry experience, creativity and unparalleled service. Our mission is to guarantee that our customers' transactional documents are distributed on-time and error-free, and that they effectively promote their businesses and facilitate increased sales.
